WHO WE ARE

A practical partner for business and technology needs.

Zuvan Software Services Pvt. Ltd. is positioned to support organisations through IT consulting, staffing and recruitment services. We focus on understanding each client's requirements, communicating clearly, and working towards solutions that fit their business goals.

Our approach is built around responsiveness, requirement clarity, professional coordination and long-term working relationships. We aim to make it easier for clients to explore technology options and identify talent aligned with their needs.

OUR VISION

To become a trusted partner for organisations seeking technology guidance and talent solutions across India.

OUR MISSION

To deliver responsive, transparent and client-focused services that help businesses move forward with confidence.

OUR WORKING PRINCIPLES

- ✓ **Understand first:** clarify the business requirement before recommending a solution.
- ✓ **Communicate clearly:** keep expectations, timelines and next steps transparent.
- ✓ **Focus on fit:** align talent and services to the role, project or business need.
- ✓ **Build relationships:** aim for professional, long-term collaboration rather than one-time transactions.

OUR SERVICES

Support designed around your needs.

We focus on three core service areas for Indian businesses and organisations.

01 | IT CONSULTING

Technology guidance aligned with business objectives.

We work with clients to understand technology challenges, review possible approaches and plan practical next steps.

Potential areas of support

- Technology assessment and solution planning
- Digital transformation guidance
- Application and software project support
- Cloud and infrastructure advisory, where applicable
- Project coordination and technology recommendations

02 | STAFFING

Workforce support for changing business requirements.

We help organisations explore staffing options based on the skills, experience, duration and availability needed for a role or project.

Potential areas of support

- IT and technical staffing
- Contract and contract-to-hire staffing, subject to agreement
- Permanent hiring support
- Role requirement coordination
- Candidate pipeline and interview coordination

03 | RECRUITMENT

Structured support to help identify suitable candidates.

We work with hiring teams to understand job requirements and support candidate sourcing and selection coordination.

Potential areas of support

- Requirement intake and role clarification
- Candidate sourcing and initial screening
- Resume sharing and interview scheduling
- Candidate follow-up and feedback coordination
- Support for technical and non-technical roles

HOW WE WORK

A clear process from requirement to next step.

Our workflow can be adapted to the scope of the engagement and the client's internal process.

01	**DISCOVER** Understand your business, hiring or technology requirement, timelines and success criteria.
02	**ALIGN** Confirm scope, role details, required skills, commercial terms and responsibilities.
03	**SOURCE / PLAN** Develop a candidate sourcing approach or a practical technology support plan.
04	**COORDINATE** Share updates, coordinate discussions and keep relevant stakeholders informed.
05	**REVIEW** Collect feedback, address open questions and agree on the next steps.

WHAT CLIENTS CAN EXPECT

- ✓ A clear discussion of requirements before work begins.
- ✓ Professional communication and agreed update points.
- ✓ A focus on suitability, not just volume of profiles or options.
- ✓ Respect for client confidentiality and candidate information.

WHY WORK WITH ZUVAN

A relationship-first way of working.

We aim to make collaboration straightforward by keeping the process clear and focusing on what matters to your business.

Requirement-focused

We begin by understanding your objectives, constraints and expectations.

Responsive coordination

We aim to keep communication clear and follow up on agreed actions.

Flexible engagement

The scope and workflow can be discussed according to your business needs.

Long-term mindset

We value dependable working relationships and constructive feedback.

LET'S EXPLORE A PARTNERSHIP

Whether you need technology guidance, support for a hiring requirement or help planning your workforce needs, we welcome a conversation to understand your goals and see whether our services are a suitable fit.
